

**TINJAUAN PELAKSANAAN *INFORMED CONSENT* PEMERIKSAAN  
KONTRAS COLON IN LOOP DI INSTALASI RADIOLOGI RSUD KOTA  
YOGYAKARTA**

Zhazha Sulistya Nengrum<sup>1</sup>, Eniyati<sup>2</sup>, Zakharias Kurnia Purbobinuko<sup>3</sup>

**INTISARI**

**Latar Belakang :** Rekam medis memegang peranan utama dalam peningkatan kualitas mutu pelayanan medis pada rumah sakit. Pada bagian dokumen rekam medis pasien terdapat beberapa lembar salah satunya lembar *Informed Consent*. *Informed consent* memegang peran utama untuk fasilitas medis pemberi layanan, karena pada *lembar* tersebut dapat menciptakan suatu kesepakatan tindakan kesehatan. Sedangkan pada pelaksanaan *informed consent* sendiri masih terdapat ketidaksesuaian dalam pelaksanaannya.

**Tujuan Penelitian :** Tujuan penelitian ini adalah untuk mengetahui pelaksanaan *Informed Consent* pemeriksaan kontras *colon in loop* di instalasi radiologi RSUD Kota Yogyakarta

**Metode Penelitian :** Metode dalam penelitian menggunakan metode penelitian deskriptif dengan menggunakan pendekatan kualitatif yang bersifat *in depth interview* (wawancara mendalam).

**Hasil Penelitian :** Hasil penelitian menunjukan bahwa pelaksanaan informed consent di RSUD Kota Yogyakarta belum sesuai aturan yakni pada pelaksanaan *informed consent* masih terdapat beberapa dilakukan secara lisan saja. Item dalam penyampaian *informed consent* meliputi, sekurang-kurangnya mencakup diagnosa pasien, tindakan yang akan diberikan, prosedur tindakan, tujuan tindakan, resiko tindakan serta alternatif tindakan. Dari keseluruhan kelengkapan *informed consent* belum seluruhnya lengkap dan tepat.

**Kesimpulan :** Pelaksanaan *informed consent* belum dilakukan semestinya serta masih terdapat lembar yang tidak lengkap dan tepat. Disarankan kepada petugas yang bertanggung jawab terhadap pengisian lembar tersebut.

**Kata Kunci :** Pelaksanaan, Informed Consent, Pemeriksaan Kontras Colon In Loop

**ABSTRACT**

**Background :** Medical records play a major role in improving the quality of medical services in hospitals. In the patient's medical record section, there are several sheets, one of which is the Informed Consent sheet. Informed consent plays a major role for service-providing medical facilities, because on the sheet it can create an agreement on health actions. Meanwhile, in the implementation of informed consent, there are still discrepancies in its implementation.

**Purpose :** The purpose of this study was to determine the implementation of Informed Consent for colon-in-loop contrast examination at the radiology installation of the Yogyakarta City Hospital.

**Method :** The method in this study uses descriptive research methods using a qualitative approach that is in depth interviews.

**Result :** The results showed that the implementation of informed consent at the Yogyakarta City Hospital was not in accordance with the rules, namely in the implementation of informed consent there were still some that were carried out orally. Items in the delivery of informed consent include, at least include the patient's diagnosis, the action to be given, the procedure for action, action, and actions and alternative actions. Overall, the completeness of the informed consent was not comprehensive and precise.

**Conclusion :** The implementation of informed consent has not been carried out properly and there are still incomplete and correct sheets. It is recommended to the officer who is responsible for filling out the sheet

**Keywords :** Implementation, Informed Consent, Colon In Loop Contrast
