

# **KELENGKAPAN PENGISIAN *INFORMED CONSENT* KASUS BEDAH MAYOR DI RSUD PRAMBANAN TAHUN 2019**

Tri Sholikah<sup>1</sup>, Kuswanto Hardjo<sup>2</sup>

## **INTISARI**

**Latar Belakang** : Kelengkapan pengisian lembar *Informed Consent* menjadi masalah yang sangat penting. *Informed consent* dapat dijadikan alat bukti hukum, apabila terjadi tuntutan atas kesalahan tindakan kedokteran. Semua tindakan kedokteran harus mendapat persetujuan dari pasien atau keluarga terdekat pasien. Pelaksanaan pengisian lembar *Informed Consent* masih belum sesuai dengan peraturan dan standar yang telah ditetapkan. Masih terdapat *item-item* pada lembar *Informed Consent* yang tidak terisi seluruhnya.

**Tujuan Penelitian** : Mengetahui kelengkapan dan ketepatan pengisian *informed consent* kasus bedah mayor di RSUD Prambanan Sleman.

**Metode Penelitian** : Menggunakan metode penelitian deskriptif dengan pendekatan kuantitatif. Teknik pengumpulan data dengan cara pengamatan (observasi).

**Hasil Penelitian** : Hasil penelitian menunjukkan bahwa pengisian *Informed Consent* yang terisi lengkap sebesar 24% dan penulisan nama pasien yang tepat sebesar 88%.

**Kesimpulan** : Pengisian *Informed Consent* kasus bedah mayor di RSUD Prambanan periode bulan Januari-Maret belum seluruhnya lengkap dan tepat, menekankan kepada petugas yang bertanggung jawab atas pengisian *Informed Consent* dan meningkatkan pengawasan terhadap pengisian *Informed Consent*, utamanya kasus bedah mayor.

**Kata kunci** : Kelengkapan dan Ketepatan. *Informed Consent*. Bedah Mayor.

**COMPLETE FULLFILLMENT OF INFORMED CONSENT IN  
MAJOR SURGERY CASE AT RSUD PRAMBANAN IN 2019**

Tri Sholikah<sup>1</sup>, Kuswanto Hardjo<sup>2</sup>

**ABSTRACT**

**Background:** *Completeness of filling sheets Informed Consent becomes a very important problem. Informed consent can be used as a legal proof, if there is demand for medical action mistakes. All medical actions should be approved by the patient or the closest family of patients. Implementation of filling sheet Informed Consent is still not in accordance with the rules and predefined standards. There are still items on the Informed Consent sheet that are not fully stocked.*

**Purpose:** *To Know the completeness and accuracy of the filling informed consent major surgical cases in Prambanan Hospital of Sleman.*

**Method:** *Using a descriptive research method with a quantitative approach. Data collection techniques by observation.*

**Result:** *The results of the study showed that the Informed Consent was filled with a complete 24% and the proper writing of the patient name was 88%.*

**Conclusion:** *Charging Informed Consent cases major surgery in the Prambanan hospital in January-March is not entirely complete and precise, emphasizing the officer in charge of charging Informed Consent and improving surveillance on charging Informed Consent, mainly major surgical cases.*

**Keywords:** *Completeness and accuracy, Informed Consent, major surgery.*
