

## LITERATUR STUDY : RANCANGAN DESAIN MAP BERKAS REKAM MEDIS TAHUN 2020

Saniatul Fathatul Khoir<sup>1</sup>. Zakharias Kurnia Purbobinuko<sup>2</sup>

### INTISARI

**Latar Belakang** : Map rekam medis (folder) adalah sampul yang digunakan untuk melindungi formulir-formulir rekam medis yang ada di dalamnya agar tidak tercecer. Map ini digunakan untuk menyatukan semua lembar rekam medis pasien sehingga menjadi satu riwayat utuh, melindungi lembar-lembar rekam medis didalamnya agar tidak mudah rusak, robek, terlipat dan mempermudah penyimpanan, pencarian, dan pemindahan berkas rekam medis. Semua formulir rekam medis hendaknya ditata dalam map (folder). Map (folder) dibuat dari bahan manila atau bahan yang lebih kuat, misalnya cardboard. Penelitian ini menggunakan metode *literatur review*.

**Tujuan Penelitian** : penelitian ini bertujuan untuk mengetahui berbagai permasalahan yang timbul akibat redesign map/folder yang ada serta upaya meredesign untuk mengatasi permasalahan terkait desain map berdasarkan dari berbagai jurnal.

**Hasil Penelitian** : berdasarkan kelima jurnal rancangan ulang desain map/folder dan desain sebelum dan sesudah dilakukan *redesign* map sudah berdasarkan aspek anatomi, fisik, dan isi.

**Kata kunci** : rancangan desain map berkas rekam medis

**ABSTRACT**

**Background:** Medical records folder (folder) is a cover that is used to protect the medical record forms that are in it so it is not scattered. This folder is used to bring together all the patient's medical record sheets so that they become a complete history, protecting the medical record sheets in it so that they are not easily damaged, torn, folded and facilitate the storage, search, and transfer of medical record files. All medical record forms should be organized in a folder. Folder (folder) is made of manila or a stronger material, such as cardboard. This study uses the literatur review method.

**Purpose of Research:** this research aims to solve various problems that arise as a result of the redesign of existing folders/folders as well as efforts to redesign to overcome problems related to map design based on various journals.

**Research of research:** based on the five redesigned journal folder/folder design and design before and ater the redesign of the medical record file folder has been based on aspects of anatomi, physical, and content.

**Keywords:** design of medical record file folder design
