

TINJAUAN PELAKSANAAN LAPORAN BULANAN DATA KESAKITAN (LB 1) DI PUSKESMAS SEYEGAN, KABUPATEN SLEMAN TAHUN 2016

Anisah Muna Azizah¹, Kori Puspita Ningsih²

INTISARI

Latar Belakang: Pelaporan puskesmas merupakan suatu alat organisasi yang bertujuan untuk dapat menghasilkan laporan secara cepat, tepat dan akurat dengan terlebih dahulu melalui pengumpulan dari unit – unit terkait dengan periode yang telah ditentukan. Laporan Bulanan Data Kesakitan (LB 1) sangat penting sebagai dasar dalam pengambilan keputusan dalam upaya penanganan masalah kesehatan di masyarakat. Dalam proses pengumpulan, pengolahan dan penyajian LB 1 di Puskesmas Seyegan tahun 2016 masih mengalami hambatan.

Tujuan Penelitian: Meninjau Pelaksanaan Laporan Bulanan Data Kesakitan (LB 1) di Puskesmas Seyegan Kabupaten Sleman Tahun 2016

Metode Penelitian: Penelitian ini menggunakan metode deskriptif dengan menggunakan pendekatan kualitatif dan rancangan penelitian secara *cross sectional*. Teknik pengumpulan data yang digunakan adalah observasi, wawancara dan studi dokumentasi.

Hasil Penelitian: Pengumpulan Laporan Bulanan Data Kesakitan (LB 1) di Puskesmas Seyegan terhambat karena petugas terlambat mengumpulkan *entry* data lebih dari tanggal 5. Terdapat perbedaan format pengolahan LB 1 dari sifomas dan dinas kesehatan. Ketepatan waktu pengiriman laporan mencapai 92% dari 12 bulan pengiriman hanya terjadi 1 kali keterlambatan. Kendala yang dihadapi printer yang rusak selama 6 bulan, Protap tentang SP2TP belum diperbaharui dan jaringan yang sering hilang.

Kesimpulan: Pengumpulan mengalami keterlambatan dari petugas petugas pengumpul LB 1, terdapat perbedaan format pengolahan dari sifomas dan dinas kesehatan. Pengiriman laporan hanya mengalami 1 kali keterlambatan.

Kata Kunci: Laporan Bulanan Data Kesakitan (LB 1), Pengumpulan, Pengolahan, Pengiriman.

**REVIEW IMPLEMENTATION OF MONTHLY MORBIDITY DATA
REPORT (LB 1) IN SEYEGAN PUBLIC HEALTH CENTER,
DISTRICT SLEMAN YEAR 2016**

Anisah Muna Azizah¹, Kori Puspita Ningsih²

ABSTRACT

Background: The reporting health centers is an organizational tool that aims to be able to produce reports quickly, precisely and accurately by first through the collection of units - units associated with a predetermined period. Monthly Report on Maintenance Data (LB 1) is very important as the basis for decision making in the effort of handling health problem in society. In the process of collecting, processing and presenting LB 1 at Seyegan Public Health Center in 2016 is still experiencing obstacles

Objective: To observe implementation of monthly report morbidity date (LB 1) In Seyegan Public Health Center, district sleman

Research Method: This Research use deskriptif method with kualitatif approach and cross sectional research design. Data collection tehnik use observation, interview and documentation study.

Result: Monthly Report Collection of Maintenance Data (LB 1) at Seyegan Community Health Center is hampered because the officer is late to collect data entry more than the 5th. There are different LB 1 processing format from sifomas and health department. The timely delivery of reports reaches 92% of the 12 months of delivery only 1 time delay. Constraints faced by the printer that is damaged for 6 months, Protap about SP2TP has not been updated and the network is often lost.

Conclusions: The collection was delayed by the LB collecting officer 1, there was a difference in the processing format of the sifomas and the health department. Report submission only 1 time delay.

Keywords: Monthly Morbidity Data Report (LB 1), Collection, Processing, Delivery
