

# **EVALUASI PENERAPAN REKAM MEDIS ELEKTRONIK RAWAT JALAN DENGAN METODE HOT-FIT DI RUMAH SAKIT MITRA PARAMEDIKA YOGYAKARTA**

Resky Nurul Maulidina<sup>1</sup>, Andi Karisma Nurdyansyah<sup>2</sup>, Zakharias Kurnia Purbobinuko<sup>3</sup>

## **INTISARI**

**Latar Belakang :** Rumah Sakit Mitra Paramedika Yogyakarta telah menggunakan Rekam Medis Elektronik (RME) sejak tahun 2019. Namun, penerapan RME menghadapi beberapa tantangan, seperti masalah jaringan, fitur yang belum lengkap dalam sistem RME, fasilitas komputer yang belum memadai, dan belum dilakukannya evaluasi sistem.

**Tujuan Penelitian :** Evaluasi penerapan RME pada rawat jalan di rumah sakit Mitra Paramedika dengan menggunakan metode HOT-Fit.

**Metode Penelitian :** Metode pada penelitian ini adalah deskriptif kualitatif dengan pendekatan studi kasus.

**Hasil :** Hasil penelitian menunjukkan bahwa sistem sosialisasi RME baik dan petugas merasa puas. Dukungan organisasi yang baik, dan telah terdokumentasinya standar operasional prosedur. Namun, masih terdapat kekurangan pada komponen teknologi yaitu belum lengkapnya fitur menu pada sistem dan fasilitas perangkat keras. Secara keseluruhan, sistem ini telah meningkatkan efisiensi kerja.

**Kesimpulan :** Semua petugas sudah memahami sistem RME, namun masih terdapat kekurangan fitur dan fasilitas komputer. Secara keseluruhan, sistem ini dinilai meningkatkan efisiensi kerja.

**Kata kunci :** Evaluasi, Rekam Medis Elektronik , HOT-Fit

# EVALUATION OF THE IMPLEMENTATION OF OUTPATIENT ELECTRONIC MEDICAL RECORDS USING THE HOT-FIT METHOD AT MITRA PARAMEDIKA HOSPITAL YOGYAKARTA

Resky Nurul Maulidina<sup>1</sup>, Andi Karisma Nurdiansyah<sup>2</sup>, Zakharias Kurnia Purbobinuko<sup>3</sup>

## ABSTRACT

**Background:** *Mitra Paramedika Hospital Yogyakarta has been using EMR since 2019. However, the implementation of EMR faces several challenges, including: network issues, incomplete features, inadequate computer facilities, and lack of system evaluation.*

**Objective :** *Evaluating the implementation of Electronic Medical Records in outpatient services at Mitra Paramedika Hospital using the HOT-Fit method.*

**Method :** *The method used in this research is descriptive qualitative approach with a case study approach.*

**Result :** *The results of research indicate that the EMR socialization system is good and the staff are satisfied. Strong organization support, however, there are still shortcomings in the menu features and hardware facilities. Overall, this system has improved work efficiency.*

**Conclusion :** *all staff have understood the EMR system, but there are still lack in the features and computer facilities. Overall, the sistem is evaluated to have improved work efficiency.*

**Keywords :** *Evaluation, Electronic Medical Records, HOT-Fit*
