ABSTRACT

This research is motivated by the lack of students who behave ethically, especially at Universitas Jenderal Achmad Yani Yogyakarta. The purpose of this study is to determine the influence of the understanding of the code of ethics of the accounting profession, student intelligence and love of money on the ethical behavior of accounting students in Gamping District. The sample collection method uses a purposive sampling technique. The sample in this study consisted of 100 respondents who were accounting students in Gamping District. The data collection technique uses a questionnaire. The data analysis technique uses Structural Equation Modelling-Partial Least Squares (SEM-PLS) analysis.

The results of the study show that the understanding of the code of ethics of the accounting profession and spiritual intelligence have a positive effect on the ethical behavior of accounting students in Gamping District. Meanwhile, intellectual intelligence, emotional intelligence and love of money do not have a positive effect on the ethical behavior of accounting students.

Keywords: *understanding of the code of ethics of the accounting profession, intellectual intelligence, emotional intelligence, spiritual intelligence, love of money, ethical behavior of accounting students.*
