ABSTRACT

This research is motivated by the increasing number of UMKMs in Bantul Regency, which has led to increased market competition. Therefore, strategies are needed to ensure that UMKMs can survive and avoid bankruptcy. The purpose of this study was to determine the effect of accounting information systems, e-commerce, accounting knowledge, and utilization of information technology on the performance of UMKMs in Bantul Regency. The sampling method used purposive sampling technique. The sample in this study consisted of 41 respondents who were UMKMs actors who had registered with the Bantul Regency office. The data collection technique used a questionnaire. The data analysis technique uses Statistical Product and Service Solution (SPSS) version 26 analysis.

The results showed that the accounting information system had a positive and significant effect on the performance of UMKMs in Bantul Regency. E-commerce has a negative and significant effect on the performance of UMKMs in Bantul Regency. Accounting knowledge has a positive and insignificant effect on the performance of UMKMs in Bantul Regency. and the use of information technology has a positive and significant effect on the performance of UMKMs in Bantul Regency.

Keywords: accounting information systems, e-commerce, accounting knowledge, and information technology utilization.
