## INTISARI

**Latar Belakang:** Fenomena pacaran dikalangan remaja sudah sangat meluas. Riset yang dilakukan KPAI (Komisi Perlindungan Anak Indonesia) di 12 kota di Indonesia menunjukkan bahwa dari 2.800 responden pelajar, 76% remaja perempuan dan 72% remaja laki-laki sebagian besar remaja, mengklaim telah dan pernah berpacaran, baik remaja kota maupun desa. Data dari Kantor Pengadilan Agama (PA) Gunungkidul menunjukkan jumlah pemohon dispensasi nikah dini didalam kurun waktu 2011-2014 mengalami peningkatan. Pemohon dispensasi nikah didominasi oleh remaja lantaran hamil diluar nikah. Hasil studi pendahuluan wawancara pada 10 remaja putra dan putri di Dusun Mendak hampir semua remaja memiliki pacar dengan gaya berpacaran mereka yang berbeda.

**Tujuan:** Untuk mengetahui gambaran sikap pacaran remaja di Dusun Mendak Desa Kanigoro Kecamatan Saptosari Gunungkidul Yogyakarta

**Metode:** Jenis penelitian deskriptif kuantitatif, dengan jumlah populasi 58 responden. Pengambilan sampel menggunakan *purposive sample* sebanyak 46 responden berdasarkan kriteria Inklusi dan eksklusi, pengumpulan data menggunakan skala dan kuesioner tertutup, analisis data univariat prosentase disajikan dalam distribusi frekuensi.

**Hasil:** Sikap pacaran remaja di Dusun Mendak, didapatkan hasil bahwa sebagian besar responden berjenis kelamin perempuan sebanyak 54,3%, mayoritas remaja berusia antara 16-19 tahun sebanyak 89,1% dengan pendidikan terakhir berjenjang SMP sebanyak 73,9%. Berdasarkan hasil keseluruhan baik remaja putra maupun putri didapatkan hasil bahwa sebanyak 87,9% remaja menerapkan sikap pacaran sehat.

**Kesimpulan:** Sikap Pacaran Remaja di Dusun Mendak, sebagian besar responden remaja hampir dari keseluruhan remaja memiliki sikap pacaran sehat, hal ini berarti hanya sebagian kecil yang setuju memiliki sikap pacaran tidak sehat. Artinya dapat dipahami bahwa jumlah remaja dengan sikap pacaran sehat lebih dominan daripada remaja dengan sikap pacaran tidak sehat.

**Kata Kunci:** Remaja, Sikap, Pacaran
